

Product Data Sheet

Auto Body Prep

VOC compliant

Features: A safe solvent emulsion that quickly cleans and removes rust proofing and under coating over spray from vehicle bodies, floors and walls. **Auto Body Prep** is excellent for quick removal of organic transportation coatings.

Benefits: Multiple uses in a single product.

Uses: Removal of organic transportation coatings from vehicle bodies, heavy-duty degreasing, removal of rust proofing and undercoating from vehicle, floor and walls.

Directions: Use on cool surfaces. For vehicle bodies apply with a sponge, mitt or sprayer. Allow to dwell 3-5 minutes. Rinse with high-pressure water. Follow up with Detail Wash to remove residue.

Tips: Always wear safety glasses when spraying any chemical.

Sizes: VG-P125 = 5 gallon pail
VG-P125D = 55 gallon drum
