

Product Data Sheet

ValuView

VOC compliant

Features: **ValuView** was developed by a leading glass manufacturer. Repels rain, snow and sleet from your windshield. **ValuView** forms a chemical bond to the glass – not just a surface coating.

Benefits: Dramatically improves visibility in rain or snow, day or night. Won't streak or smear. Lasts up to six times longer than other treatments.

Uses: Use on windshield to repel water and improve visibility. **ValuView** may be used on other glass surfaces on vehicles.

Directions: Handy applicator contains enough product for one windshield. Wipe on entire windshield beginning on the drivers side then passenger side. Then immediately wipe off completely using clean dry paper towels until all film or haze is removed.

Tips: Clean glass and thoroughly dry before applying. Do not allow product to dry on glass.

Sizes: One .8ml applicator
