

Product Data Sheet

Liquid Paint Correction Cream
VOC compliant

Features: One of our most aggressive compounds yet safe for all clear coats.. Excellent for healing environmental damage, deep scratches, heavy oxidation and wet sanding marks.

Benefits: High lubricity formula for excellent “workability” perfect for clear coat finishes.

Uses: Repairing moderate to heavy damage on all clear coated surfaces. May also be used on non- clear and older paint finishes.

Directions: Use with VG-03-G or VG-03-Y pad and high speed buffer. (1200 rpm to 1750 rpm).

Tips: Never remove more than .3 mil of clear coat. The excessive removal of clear coat will lead to premature paint system failure.

Sizes: VG-L120L = 12 pints per case
VG-L120LG = 4 gallons per case
