

Product Data Sheet

Glass Cleaner Concentrate *VOC compliant*

Features: Designed specifically to cut through the haze deposited on interior glass by chemicals, tobacco smoke, etc. Won't damage after market window tint films. Contains no ammonia. 10:1 concentrate delivers excellent economy.

Benefits: Saves on labor as *Glass Cleaner Concentrate* normally cleans in one pass when competitive products may take several attempts before cutting vinyl emissions, tobacco haze and road grime.

Uses: All glass and light cleaning on hard trim, vinyl and non-fabric interior components.

Directions: See per instructions on container. Use of the *ValuGard Dispensing system* is recommended for maximum performance and economy.

Tips: For spotless, lint free glass use two VG-ST *surgical towels*. Saves time and delivers terrific results!

Sizes: VG-114GS = 4 gallons per case
VG-115S = 5 gallon pail
VG-115DS = 55 gallon drum
