

PRODUCT DATA SHEET

Custom Wheel Cleaner / F-110

VOC compliant

Features: **Non Hydrofluoric acid formula!** Thick body and high foaming action for extra strong vertical cling.

Benefits: *Custom Wheel Cleaner* won't damage clear coated wheels or cause any streaking or "smoking" of expensive clear coated custom wheels. Greater safety for the technician than hydrofluoric formulas, no floor damage. Removes brake dust and road grime with a minimum of elbow grease.

Uses: Clear coated, steel or painted wheels or wheel covers.

Directions: Apply to entire surface of wheel beginning at the top of the wheel. Allow to dwell 2-4 minutes. Agitate with a soft brush such as VG-1540 if necessary. Rinse thoroughly with a stream of cool water.

Tips: *Never* apply this, or any other, wheel cleaner to warm, hot or dry wheels. Always pre rinse to cool and lubricate wheel before application of cleaner. For maximum efficiency begin vehicle wash process while wheel cleaner is dwelling.

Sizes: VG-F110 = 12/22 oz. bottles per case
VG-F110G = 4 gallons per case
VG-F111 = 5 gallon pail
VG-F11D = 55 gallon Drum
