

PRODUCT DATA SHEET

Glass Cleaner Aerosol / H-114-A

VOC compliant

Features: Designed specifically to cut through the haze deposited on interior glass by chemicals, tobacco smoke, etc. Won't damage after market window tint films. Contains no ammonia. Large 22oz. can delivers excellent economy.

Benefits: Saves on labor as *Glass Cleaner Aerosol* normally cleans in one pass when competitive products may take several attempts before cutting vinyl emissions, tobacco haze and road grime.

Uses: All glass and light cleaning on hard trim, vinyl and non-fabric interior components.

Directions: Shake Well Before Each Use. Always use 2 lint free towels. Use per instructions on container.

Tips: For spotless, lint free glass use VG-ST surgical towels. Saves time and delivers terrific results!

Sizes: VG-H114A = 12/22 oz cans per case
(23.25 fl. Oz.)
