

PRODUCT DATA SHEET

Grime Wash / VG-A101R

Grime Wash – This product is designed for removing stubborn grime and dirt from garbage containers. A unique product formulated with leading edge chemical engineering.

Benefits: Economical, cost effective, cleans even the deepest of stains, deep penetrating, effective against all types of grime, easy to use

Uses: Garbage trucks, garbage cans, dumpsters

Directions: Apply Grime Wash with a pump sprayer or spray bottle. Coat inside and outside of waste container liberally. Agitate lightly with a soft bristle truck brush. Use circular motions to remove any stubborn soils or stains. Rinse inside of containers from top down with high pressure water. Lay the container over and rinse the remaining residue out. Rinse outside of the container from top down with high pressure water, making sure to rinse inside of lid. Allow to air dry.

Sizes: A101RTU – 55 Gallon Drum
