

PRODUCT DATA SHEET

Trim & Molding Dressing / D-106

VOC compliant

Features: Cleans and dresses hard trim and moldings to a high gloss shine.

Benefits: *Trim & Molding Dressing* is a long lasting solvent based polymer dressing that resists detergents. Adds a deep luster to treated components.

Uses: Exterior hard trim and moldings.

Directions: Spray or pour onto a sponge or soft cloth and apply to component. Spraying product directly onto component wastes product and increases detail time. Application with ValuGard VG-SB Sponge is ideal for economy and performance.

Tips: When performing buffing process pre-treat trim and moldings with *Trim & Molding Dressing*. This will make “buff splatter” easier to remove and reduce detail time.

Sizes: VG-D106 = 12 pints per case
VG-D106G = 4 gallons per case
VG-D107 = 5 gallon pail
VG-D017D = 55 gallon drum
